

Bolster Tray

The Bolster series uses a unique folding technique to create a strong, rigid and fully rounded edge to the frame. Folding the leather in this manner pushes the grain and colour to the fore, showing the beautiful character of the material. The seams are carefully hand butt stitched with linen thread before the frames are set with brass pins, reminiscent of traditional trunk making. Tumbled solid brass handles on the trays, and inset wall hangers on the mirrors sit flush on the oak frames to give a clean finish.

Standard lead time: 6-8 weeks.

Always made by hand in our workshop in Norwich, UK.
