

# Mesa Daybed

Leather panels are carefully selected, then cut and prepared by hand before being sewn, fitted to the cushion and tufted with leather buttons; or the cushion can be upholstered in heavyweight linen. The frame is made using exposed half lap joints on the corners and bridle joints on the legs. Heavy leather cord is tacked to the frame with traditional brass pins.

Standard lead time: 10-12 weeks.

Always made by hand in our workshop in Norwich, UK.
